ACTIVITIES

HITEC Luxembourg currently operates within four main fields of activity.

MARKET-ORIENTED CLIENT-CENTRIC TECHNOLOGY DRIVEN

STUDIES, PROJECT MANAGEMENT & COORDINATION

HITEC Luxembourg offers its clients holistic solutions: from analysis to consultation, from development and implementing of customer-specific solutions up to installation and maintenance. In all these phases a close cooperation with clients and partners to spot exactly the needs and requirements is essential. The overall framework consists of consulting, engineering and development, production, maintenance as well as management of our products, services and systems. HITEC Luxembourg offers Pre-Engineering in a great variety of application fields. Exploring options and alternatives as well as displaying the appropriate solution for project implementation are major tasks in the preliminary planning, the Pre-Engineering. Premises for Pre-Engineering Services are excellent knowledge of processes, underlying technologies, constraints and options. HITEC Luxembourg provides expert advice within particular industries. Pre-Engineering is understood as a management of innovations: targeted development of new ideas and processes.
