

LM11

LIMITED MOTION ANTENNA

Typical application

Telemetry, Tracking & Control (TT&C), In Orbit Testing (IOT),
Telecommunication for geostationary and geosynchronous satellites, Feeder link
gateway for HTS/VHTS/EHTS or data relay satellites

Standard diameter

11m

Frequencies

X-, Ku-, Ka-, K-band, Q/V-Band

Elevation travel range

-1° to 91°

Azimuth travel range

180°

Options

De-icing, rain blower, dehydrator, aircraft warnings, hub racks, hub HVAC
modules, etc.

Customer satisfaction promise

We offer engineering support for customizations, installation and
training by our experienced engineers and technicians.
